As directed by D.02-04-060, the Energy Division will convene a workshop to discuss with the California Manufacturer and Technology Association (CMTA), Pacific Gas and Electric Company (PG&E), and other interested parties the implementation details of a pilot OBMC program in PG&E's service territory. D.02-04-060 found that use of a 10-day OBMC baseline normalized to reflect conditions on the day of the OBMC event (e.g., adjusted for temperature or production variations) may be a useful option for some customers participating in the OBMC program, provided that it can be kept administratively simple after first being evaluated in a pilot program. **Summary: THIS IS AN AUGMENTED NOTICE OF AN EX PARTE COMMUNICATION THAT WAS FILED ON MARCH 19, 2002, AND APPEARED IN THE CALENDAR OF APRIL 9, 2002.** On March 15, 2002, Christopher Mayer, Modesto Irrigation District's (MID) Assistant General Manager-Planning and Marketing, met with Cmmr. Lynch in an all-party meeting in San Francisco. Also present were Aaron Johnson, advisor to Cmmr. Lynch, and other attendees listed on the attachment to the notice. Mayer stated that MID is concerned about previous statements of Pacific Gas and Electric Company and Southern California Edison Company requesting that any California Department of Water Resources (CDWR) direct access exit fee also be extended to departing load customers, including electric customers served by irrigation districts. Mayer pointed out that the Commission has already decided this matter by the manner in which it defined energy service provider in the CDWR rate agreement decision. Mayer stated further that aside from that issue, MID has no position on the alternatives for suspension of direct access.

Also present were Lester Wong, advisor to Cmmr. Peevey. Ron Walters, Regional Vice President – Regulatory Policy for Z-Tel, participated in the meeting by telephone. Written material (attached to the notice) was used. Z-Tel's representatives explained that Pacific Bell's unbundled switching and loop prices are excessive and that the proposed interim price reductions are a significant step toward affordable prices consistent with the needs of competitors. Z-Tel urged the adoption of the interim price reductions without delay, but asked that proposal for a retroactive true-up be rejected and instead that Pacific Bell be ordered to refund excessive payments made by competitors for UNEs since July 2001.

4/22/02            A00-06-023            Southern California Gas Company, regarding Year Six (1999-2000) under its experimental Gas Cost Incentive Mechanism and related gas supply matters.

**Summary: AUGMENTATION REQUIRED.** On April 17, 2002, Douglas Porter,

Attorney for Southern California Edison Company (Edison), participated in an all-party meeting before Cmmrs. Duque and Brown. A list of the attendees is attached to the notice. Written material (attached to the notice) was used. Porter stated that while Edison believes that PBR formulas should replace reasonableness reviews, Edison was concerned with the inclusion in the GCIM factors not related to procurement of natural gas for core customers. Porter explained that both the existing and proposed modifications to the GCIM under the Southern California Gas (SoCalGas) settlement permits SoCalGas to include revenues from hub services and financial hedging transactions without evaluation of the impact of such activities on the price of natural gas.

**Summary: LATE FILED.** On April 16, 2002, Norman Pedersen, on behalf of the Southern California Generation Coalition (SCGC), met with Cmmr. Brown in an all-party meeting in San Francisco. Also present were Belinda Gatti, advisor to Cmmr. Brown, Mark Pocta of the Office of Ratepayer Advocates, Brian Cragg representing Dynegy, Marcel Hawiger for The Utility Reform Network, Glen Sullivan representing Southern California Gas Company (SoCalGas) and San Diego Gas & Electric Company (SDG&E), and Brian Cherry for Pacific Gas and Electric Company. Pedersen stated that SCGC has consistently opposed SoCalGas/SDG&E cross-subsidization schemes.

Pedersen stated further that the Comprehensive Settlement must be modified if the core portfolio consolidation proposal is to be implemented. Pedersen also discussed the issue of the disposition of El Paso Natural Gas Company capacity, and stated that another alternative for disposition of the 210 MMcf/d may become available. Pederson also explained SCGC's objection to a proposal to ban certain subclasses of noncore customers from converting to core. With respect to the proposal to permit the combined Gas Acquisition Department to acquire gas that would be utilized by SDG&E in tolling arrangements, Pederson stated that this would create a potential for abuse that would be difficult to audit.

**Summary:** On April 17, 2002, Jeff Compton, Director of Regulatory Relations for Telscape Communications, Inc. (Telscape), met with Robert Wullenjohn, advisor to Cmmr. Brown, Tom Long, advisor to Cmmr. Lynch, and Lester Wong, advisor to Cmmr. Peevey, in three separate meetings in San Francisco. At the meeting with Robert Wullenjohn also present was Jonathan Lakritz, advisor to Cmmr. Wood. Written material (attached to the notice) was used. Compton indicated Telscape's strong support for interim reductions in Pacific Bell's prices for unbundled network elements, but urged that the prices for unbundled loops be set lower than is now proposed in the draft decision. Compton explained further that Telscape focuses on serving Hispanic residential subscribers in inner city areas, which are low-cost areas, and that simply lowering the statewide average loop price would not enhance the ability of carriers such as Telscape to compete for and serve subscribers in these areas to the same extent as subscribers in more affluent areas. Compton stated that it is, therefore, important that proportionate price reductions be ordered for de-averaged loops.

**Summary: LATE FILED.** On April 16, 2002, Marcel Hawiger, staff attorney for The Utility Reform Network (TURN), met with Cmmr. Brown in an all-party meeting in San Francisco. Also present were other attendees listed on the attachment to the notice. Hawiger stated that TURN supported the Office of Ratepayer Advocates' proposal to optimize the reverting capacity for the combined core portfolio. Hawiger stated further that using capacity flowing into Pacific Gas and Electric Company or Mojave will cost core customers additional money for transportation charges. Hawiger also explained that the amortization time for capacity infrastructure supported a longer term commitment for core transportation service. Hawiger indicated that the savings from the proposed merger of core procurement departments should be immediately deducted from base margin.
